Attachments: Azarga Centennial UIC Permits.pdf

Good morning Darcy: we should have a final version of our meeting results to you by early afternoon today.

I've attached the letter that I emailed to John on Friday concerning voluntary withdrawal of their Centennial applications in case you had not seen this yet. I did mention to John on Thursday's call that this was coming and summarized its contents for him. In response, he was going to check whether the conditions of their lease(s) for this ISR project were contingent on having UIC applications in house with EPA.

Douglas

Subject: Reminder - need Dewey update today
Importance: High

Doug has asked me to meet with him before the call with Blake and John on Tuesday am (looks like my meeting with Doug is at 8, call w/John and Blake at 8:30)—I would like to hear how the discussion went with John, what feedback you got from John on the proposed approach, how far you got into timing based on our proposed approach and if John gave any indication on whether this may affect their previous request on expanding the AE area. Please provide me something this afternoon with time to follow up with you on any questions. I plan to be here until 5 pm.

Thanks!
D
